Junior Christ-Pio Dofonsou

Web developer · Frontend, APIs & e-commerce

Trained in networking, then Laravel, then the React ecosystem. I build modern interfaces, integrate APIs and help brands sell on Shopify. Open to freelance projects, collaborations and full-time roles, including remote work.

EXPERIENCE

Shopify & e-commerce
2025 – present
Independent

- Built Shopify stores for brands and managed partner stores.
- Customer support at a Shopify app publisher: reproducing and diagnosing bugs (bundles, subscriptions, upsells, discount codes), documented escalation to the dev team.
- Digital products store on Chariow: 581 sales and 1,162,000 XOF (≈ €1,770) in revenue from February to May 2026, driven by paid ads and social media.

VIBECORE
